	production date, expiry date, production lot, the total net weight,	
	the number of envelopes in the cardboard box and Barcode Ean 13	
	and 128. It' possible to indicate the item code of the customer. Also	
	highlighted are Indications for consumption are also reported.	
Traceability system	For each sale's unit is assigned a unique sequential batch number	
7.25335, 3,553	per year, which is indicate on a label pallet and on the delivery	
	document, following the goods during shipment.	
	document, renowing the goods during simplificate.	

**NUTRITIONAL DECLARATION (Average values per 100g)** 

Raw beef tripe is characterized by a thin rubbery tissue, with a light Colour typical of this product.

The inner part of the tripe maintains its natural mucosa composed by numerous small papillae.

The outer part of the tripe is composed by muscle-fibrous tissue and it's properly degreased with a suitable centrifugal-refiner machine. Vacuum packaging ensures adequate protection of the frozen product, avoiding the creation of dehydrated areas and typical « cold burn » stains.
