NUTRITIONAL DECLARATION (Average values per 100g)

Semicooked beef tripe are characterized by a thin rubbery tissue, whit a light colour typical of this product.

The inner part of the tripe maintains its natural mucosa composed by numerous small papillae.

The outer part of the tripe is composed by muscle-fibrous tissue and it's properly degreased with a suitable centrifugal-refiner machine.

Vacuum packaging ensures adequate protection of the frozen product, avoiding the creation of dehydrated areas and typical « cold burn » stains.
